

Connecticut Disability Advocacy Collaborative

“Enhancing the effectiveness of disability activism by organizing and empowering individuals, families, groups and organizations”

Dear Exhibitor:

On September 16, 2006 our first Connecticut Disability Advocacy Convention and Expo drew over 800 attendees to the Connecticut Expo Center. People with disabilities, families with children with disabilities, advocates, and representatives of public and private agencies from all over the state came to hear from candidates for office and discuss critical issues that demand our attention. **They also came to visit the booths of 80 + vendors and exhibitors** representing products, services and programs that serve people with disabilities.

Join us on September 27 for Disability Convention and Expo 2008!

Once again we are offering you the opportunity to exhibit at this historic event. Enclosed is a registration form and information packet. **Don't wait, as the choice locations are going fast!**

As an exhibitor you will be able to:

- ◆ Showcase your unique business or organization.
- ◆ Demonstrate products you have that help people with a disability live more independently.
- ◆ Highlight the work your organization does to help people with disabilities live fuller lives at home, at school, at work, or in recreational settings.
- ◆ Share information about your projects and accomplishments.

Visit our website at www.ct-dac.org for more information about the Collaborative, and to see a list of 2006 exhibitors.

Best wishes,
Stan Kosloski
Project Director
